Consolidated Revenue¹ Breakdown, MM Rub, %

Revenue Breakdown by Segments², MM Rub, %

¹ Revenues are recognized net of VAT, discounts and commissions, but gross of TAC

² Segments do not total to 100% due to eliminations: intersegment transactions, primarily related to advertising, which are eliminated in the consolidation

*Our E-commerce segment includes Yandex.Market, our e-commerce platform combining the price comparison service, marketplace and several small experiments. On April 27, 2018 Yandex and Sberbank announced the completion of the formation of the joint venture based on the Yandex.Market platform. The parties owned equal stakes in the JV. We deconsolidated Yandex.Market starting April 27, 2018 from our consolidated financial results. On July 23, 2020 Yandex and Sberbank closed the transactions to reorganize their two Joint Ventures – Yandex.Market and Yandex.Money. As a result, Yandex has become the controlling shareholder in Yandex.Market.

Note: Given the persisting uncertainty around the full economic impact of the coronavirus pandemic and potential further disruptions caused by the emerging second wave of the health crisis and related governmental and businesses responses, we are unable at this time to reliably predict the pace and the shape of the further recovery for our businesses. As such, we are not providing guidance until there is greater clarity regarding the impact of the current pandemic on the business environment generally and on Yandex in particular.

⁵ In Q4 2018 capital expenditures were Rub 13.9 Bn, which included one-time effect of the acquisition cost of the property site for our new Moscow headquarters, which amounted to Rub 9.7 Bn (around \$145 MM, based on the exchange rate as of transaction date) exclusive of 18% VAT. Our Capex, excluding the one-off effect from the headquarter site acquisition, was 11% of total Q4'18 revenues, while for the FY 2018 our Capex was 15% of total revenues. In 2020, we expect our CapEx excluding new HQ expenditures to be in the low teens as a percent of total revenues.

* In Q4'18 our headcount was down 1% compared to September 30, 2018. This decrease was mainly due to headcount reclassification, which we implemented to ensure consistency in internal reporting.

** In Q1'19 our headcount was down 2% compared to December 31, 2018. This decrease was mainly due to headcount reclassification, which we continued to implement to ensure consistency in internal reporting.

Note: Capex primarily relates to servers and data center equipment. Capex is not evenly spread across the quarters and depends on the delivery date of equipment.

¹ As online advertising formats continue to converge, starting from Q1 2016 we are no longer providing a breakdown of our online ad revenues into text-based and display revenues. However, we continue to separately present online advertising revenues from Yandex properties and revenues from our Ad Network. As a result, we show Partner TAC as % of our Ad Network revenue, which includes revenues from text-based ad network and our display ad network, and distribution TAC as % of our online advertising revenues from text-based and display advertising on our owned and operated websites
