July 2021

# Forward Looking Statement Disclaimer

This presentation contains forward-looking statements that involve risks and uncertainties. These include statements regarding our future financial and business performance, our business and strategy and the impact of the COVID-19 pandemic on our industry, business and financial results.

Actual results may differ materially from the results predicted or implied by such statements, and our reported results should not be considered as an indication of future performance. The potential risks and uncertainties that could cause actual results to differ from the results predicted or implied by such statements include, among others, the impact of the ongoing COVID-19 pandemic and regulatory and business responses to that crisis, macroeconomic and geopolitical developments affecting the Russian economy or our business, changes in the political, legal and/or regulatory environment, competitive pressures, changes in advertising patterns, changes in user preferences, technological developments, and our need to expend capital to accommodate the growth of the business, as well as those risks and uncertainties included under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 20-F dated April 1, 2021, which is on file with the Securities and Exchange Commission and is available on our investor relations website.

All information provided in this presentation is as of July 28, 2021, and Yandex expressly disclaims any duty to update this information unless required by law.

# Our Key Businesses

**Yandex** is a technology company that builds intelligent products and services powered by machine learning

**Our goal** is to help consumers and businesses better navigate the online and offline world

# **Key Operational and Financial Highlights**

# Business Growth Dynamics

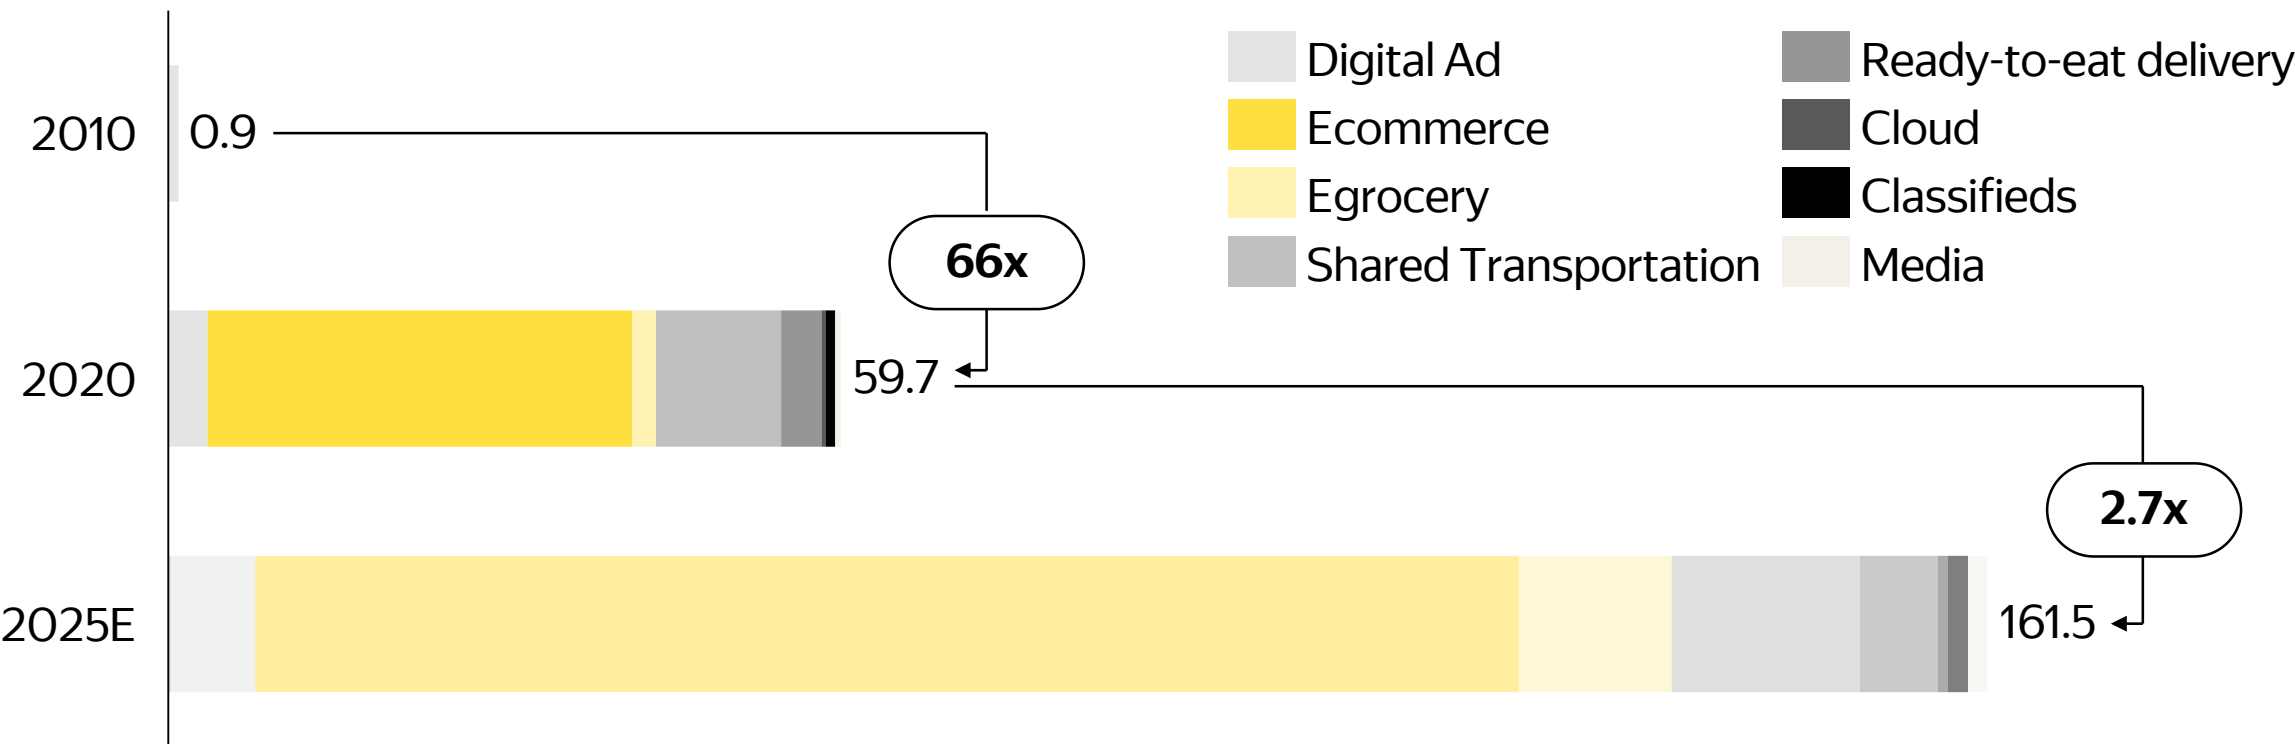

Revenue,  
RUB BN

+30%  
CAGR

- Yandex transforming from an advertising business into a comprehensive digital platform for consumers and businesses
- Diversified business model with over 50% revenues coming from fast growing non-advertising segments
- Highly marginal advertising and ride-hailing businesses allowing to re-invest into new attractive growth opportunities and expansion of total addressable market
- Large total addressable Market in current geographies (\$60BN in 2020 vs. \$0.9BN in 2010) with significant growth potential presenting a catalyst for many years to come

# Yandex Revenue Sources are Diversified

## Consolidated Revenue<sup>1</sup> Breakdown, RUB BN, %

## Revenue Breakdown by Segments, RUB BN, %

<sup>1</sup> Revenues are recognized net of VAT, discounts and commissions, but gross of TAC.

<sup>2</sup> On April 27, 2018 Yandex and Sberbank announced the completion of the formation of the JV based on the Yandex.Market platform. The parties owned equal stakes in the JV. We deconsolidated Yandex.Market starting April 27, 2018 from our consolidated financial results. On July 23, 2020 Yandex and Sberbank closed the transactions to reorganize their two JV's – Yandex.Market and Yandex.Money. As a result, Yandex has become the controlling shareholder in Yandex.Market and its result consolidated back to Yandex financial results.

# Search and Portal

### Yandex's Search Share across Platforms, %

### Evolution of Yandex's Mobile Search Traffic & Revenue

### Revenue, RUB BN

### Adj. EBITDA, RUB BN

Source: Yandex.Radar

\*The COVID-19 pandemic and the resulting strict lockdown measures had a material impact on our financial results and operations in Q2 2020, particularly on our advertising and mobility businesses, as well as classifieds services. The growth dynamic in Q2 2021 is therefore impacted by the base effect: low base effect for Search & Portal, Ride-Hailing, Classifieds businesses, while high base effect for E-commerce, FoodTech and Media Services.

# Taxi Group (MLU<sup>1</sup>)

**Revenue<sup>2</sup>,**  
RUB BN

**Adj. EBITDA,**  
RUB BN

## The Taxi segment includes

- Ride-hailing business, which consists of Yandex.Taxi in Russia and 16 other countries across CIS and EMEA, and Uber in Russia and CIS for both B2C and B2B
- Yandex.Delivery - logistics service for both B2C and B2B
- FoodTech businesses, which includes Yandex.Eats, our ready-to-eat and grocery delivery service, and Yandex.Lavka, our hyperlocal convenience store delivery service
- Yandex.Drive, our car-sharing business

<sup>1</sup> MLU B.V. is a JV with Uber which was founded in February 2018, by combining Yandex Taxi Holding B.V. with several Uber legal entities. <sup>2</sup> Revenues are presented in accordance with Revenue, whereby in cities where we have implemented commissions, minimum fare guarantees, and discounts are netted against revenues. Following the revision of our organizational structure and financial disclosure

\*The COVID-19 pandemic and the resulting strict lockdown measures had a material impact on our financial results and operations in Q2 2020, particularly on our advertising and mobility businesses, as well as classifieds services. The growth dynamic in Q2 2021 is therefore impacted by the base effect: low base effect for Search & Portal, Ride-Hailing, Classifieds businesses, while high base effect for E-commerce, FoodTech and Media Services. The adverse impact was partially offset by the acceleration in FoodTech businesses (both Yandex.Eats and Lavka) and Media Services. As a result the year-on-year dynamic of FoodTech business in Q2 2021 was primarily driven by the high base effect, while the dynamic in mobility business has been supported by the low base effect of the challenging Q2 2020.

# Mobility<sup>1</sup>

# Mobility: Ride-hailing, Car-sharing

## Ride-hailing GMV, RUB BN

## Car-sharing GMV, RUB BN

## Ride-Hailing rides growth, %

## Car-sharing

- Yandex.Drive launched in 2018
- Moscow, St-Pete, Kazan, Sochi
- ~16 K cars
- Profitable on the Adj. EBITDA level 4 quarters in a row (Q3'20, Q4'20, Q1'21 and Q2'21)
- In-house developed telematics package with 100+ sensors

\*The COVID-19 pandemic and the resulting strict lockdown measures had a material impact on our financial results and operations in Q2 2020, particularly on our advertising and mobility businesses, as well as classifieds services. The growth dynamic in Q2 2021 is therefore impacted by the base effect: low base effect for Search & Portal, Ride-Hailing, Classifieds businesses, while high base effect for E-commerce, FoodTech and Media Services. The adverse impact was partially offset by the acceleration in FoodTech businesses (both Yandex.Eats and Lavka) and Media Services. As a result the year-on-year dynamic of FoodTech business in Q2 2021 was primarily driven by the high base effect, while the dynamic in mobility business has been supported by the low base effect of the challenging Q2 2020.

# FoodTech: Food Delivery and E-grocery

**FoodTech GMV, RUB BN**

**Yandex.Lavka Revenue, RUB BN**

**Yandex.Eats growth rates, YoY growth, %**

## Yandex.Eats

- Q2'21 share of grocery in GMV – 19%
- Q2'21 own delivery – 85% (GMV)
- Delivery from 27 grocery retail chains as of June'21
- 35 K restaurants and retail partners as of June'21

\*The COVID-19 pandemic and the resulting strict lockdown measures had a material impact on our financial results and operations in Q2 2020, particularly on our advertising and mobility businesses, as well as classifieds services. The growth dynamic in Q2 2021 is therefore impacted by the base effect: low base effect for Search & Portal, Ride-Hailing, Classifieds businesses, while high base effect for E-commerce, FoodTech and Media Services. The adverse impact was partially offset by the acceleration in FoodTech businesses (both Yandex.Eats and Lavka) and Media Services. # E-commerce (Yandex.Market)

Yandex.Market assortment, MM SKUs

Number of warehouses and total warehouse capacity, K SQM

Revenue<sup>1</sup>, RUB BN

Adj. EBITDA, RUB BN

Yandex.Market Revenue and Adjusted EBITDA are presented on a standalone basis. Financial results of Yandex.Market have been consolidated in Yandex's consolidated financial results since July 23, 2020. Prior to that, we recorded our share of Yandex.Market's financial results within the income/(loss) from equity method investments line in the consolidated statements of income (from April 27, 2018, when Yandex and Sberbank formed a joint venture based on the Yandex.Market platform)

<sup>1</sup> Revenue growth is slower than GMV growth because of growing share of 3P marketplace (which accounts not on a gross, but on a commission basis), active transition of merchants from price comparison to a marketplace as well as Yandex decision to lower base merchant commission from mid-Jan 2021

# Media Services

**9.5 MM**

**Ride-Hailing GMV,**  
RUB BN

\*E-Commerce GMV is defined as the value of all merchandise sold through our Yandex.Market marketplace and Yandex.Lavka as well as the value of grocery products sold through Yandex.Eats (delivered and paid for) to customers including VAT

# Growth opportunities

# Yandex Technologies

Yandex is a leading technology company with diversified digital ecosystem including services based on proprietary technologies that are built in-house, which is intensely competitive in relation to other players

Information Retrieval

Computer Vision

Nature Language Processing

Autonomous Drive

Cloud computing

Speech Processing

Crowdsourcing platform

Routing and navigation

## Research areas

- Machine Learning
- NLP and Machine Translation
- Computational Economics
- Web Mining and Search
- Computer Vision

## OpenSource

### Clickhouse

An open-source column-oriented database management system that manages extremely large volumes of data in a stable and sustainable manner and allows generating custom data reports in real time

### CatBoost

A universal state-of-the-art open-source gradient boosting on decision trees library, widely used within the company for ranking tasks, forecasting and making recommendations

# Digital Advertising

**Russian Advertising Market 2020, RUB BN, YoY Growth, %**

**Russian Digital Advertising Market, USD BN**

## Advertising

- Underpenetrated ad market (0.4% of GDP vs 0.7% globally)
- Potential for digital ad share growth of total ad market vs global peers (c.53% vs 60-70% globally)
- Yandex strategic priorities for outperformance of digital ad market:
  - Investments in advertising technologies
  - Development of simplified products for SMEs
  - Growth of search share on iOS devices

## Zen

- Top-5 infotainment platform in Russia by DAU (after YouTube, VK, TikTok and Instagram) with a potential to improve to top 3
- Significant potential for video ads monetization and social commerce

# E-commerce

- One of the largest retail markets in Europe
- Significant potential to increase e-commerce penetration
- Highly fragmented and fast-growing market with a material consolidation potential
- Yandex ambition – to become one of the leading e-commerce players in Russia
- Yandex E-commerce platform includes Yandex.Market marketplace, Yandex.Lavka hyperlocal e-grocery service and grocery delivery via Yandex.Eats
- 2021 guidance: up to 3x growth of total E-commerce GMV

E-Commerce in Russia, RUB TRLN

E-Commerce penetration by country, 2020

Market share of top-3 players, 2020

# E-grocery

- Grocery / FMCG market has low online penetration (<2% in 2021), which implies significant upside potential
- FMCG is expected to make 2nd largest contribution to the E-commerce market growth (after fashion)
- Yandex E-Grocery portfolio consists of FMCG goods sold on Yandex.Market, hyperlocal e-grocery darkstores of Yandex.Lavka, marketplace grocery delivery of Yandex.Eats
- Yandex has #1 position in e-grocery market based on combined FMCG GMV of Market, Lavka and e-grocery in Eats

# Yandex Plus subscription

## Yandex Plus

- Attractive value proposition: bundled subscription on leading music and video streaming services at a competitive price
- The largest subscriber base in Russia with a significant growth potential
- An effective mechanism to improve customer retention, cross-service usage and customer acquisition costs within Yandex ecosystem
- Yandex Plus subscribers spend more and transact more often in our services vs. non-Plus subscribers

For more details see <https://ir.yandex/faq>

## Ecosystem subscription market, RUB BN

**9.5 MM**

Yandex.Plus subscribers in July 2021

**30 MM**

MAU in Yandex's key transacting services

**>50% of GMV**

in E-commerce (Market, Lavka, Eats) is generated by Plus subscribers

Yandex.Plus subscribers generate

**30-70% higher**

GMV in Yandex's key transactional services vs non-Plus customers

# Media Services: KinoPoisk and Yandex Music

## KinoPoisk

- Underpenetrated and fragmented Video-on-demand (VOD) market with material growth potential in Russia
- Yandex is well positioned with KinoPoisk as the leader with over 4mn monthly viewing subscribers
- Investments in original and exclusive content create differentiated offering / competitive advantage vs. peers

### VOD household penetration by country

Source: TMT Consulting, Goldman Sachs Global Investment Research, LRG, Broadcasters Audience Research Board, Euromonitor

## Yandex.Music

- Leading music streaming service on the underpenetrated market in Russia
- More than 3x growth YoY in listening on Yandex.Station
- Key differentiating points: efficient personal recommendation algorithms, focus on podcasts (including exclusive), development of children's content in a partnership with Disney as well as inclusion into a bundled Yandex.Plus subscription

### Music streaming market in Russia, RUB BN

Source: J'son & Partners Consulting, PWC

# Cloud

- Underpenetrated Russian market: 0.06% of GDP which is 2x lower than China, 2.5x lower than Brazil, 3x lower than UK and 5.4x lower than US
- Key enablers of future growth: accelerating digitalization across industrial companies and a large technical talent pool
- Yandex.Cloud is the only cloud provider in Russia with a full-fledged scalable in-house infrastructure (combining data centers, hardware and software capabilities) and is also the most certified cloud platform in Russia (in early 2021 received the highest level of compliance with the legislation of personal data)
- Yandex.Cloud enjoys >3x revenue growth driven by increasing number of customers as well as higher average check per each customer

**+227%**

# Sustainability

# Yandex Sustainability Agenda

Using tech & innovation to bring value to users and local markets

## Quality of Life

- F** Convenience, Quality and Safety of Services
- N** Accessible Environment

- F** Energy Efficiency of Yandex Infrastructure
- N** Waste Management
- N** Carbon Footprint

## Environmental Impact

**F** The foundations **N** Relatively new streams

## Ethics and Integrity

- F** Information Security and Data Privacy
- F** Responsible Procurement
- F** Content Quality
- F** Anti-Corruption and Antitrust Practices

- F** Yandex Employees
- N** Education for All
- N** Yandex Service Partners

## Investing in People

## Sustainable development streams

- Business foundations that ensure stable business growth and are long-lasting priorities (8 streams)
- Relatively new priorities reflecting high-potential areas to make an impact and/or improve performance (5 streams)

## Each of the streams...

- Is aligned with business priorities
- Is supported by clear goals and performance indicators to track progress
- Addresses stakeholder expectations derived via surveying and feedback sessions

More detailed information about our sustainability agenda is available in [2020 Sustainability Report](#)

# 2020 Sustainability Highlights

## Environmental Responsibility

**Lower by 21%**

the average PUE of Yandex data centers compared to the average global PUE<sup>1</sup>

**Only 10%**

of each watt of energy consumed by Yandex's newest data centers is used for non-computing related tasks (e.g. powering equipment)

**This is 6 times**

more efficient the global average

**92% and 15%**

of all packaging used by Yandex.Market and Yandex.Lavka, respectively, was made from recycled or secondary raw

**67%**

of waste generated by Yandex.Market in 2019-2020 was recycled or reused

## Employees

**>1/3**

women in our workforce

**1/3**

women among managers

**4.5%**

undesirable turnover

**>50%**

of Yandex employees participated in the Equity Incentive Plan

**3-5%**

is the gender pay gap among developers based on the most common job levels (the imbalance favors women for some job levels)

## Yandex Service Partners

**RUB 300 BN**

were earned by drivers from completing rides as Yandex.Taxi partners

## Education for All

**>2 MM people**

have studied through Yandex's free education programs

## Helping Hand

**>400,000**

the rides offered to

**12,000**

doctors and medical workers during the pandemic

**70 charitable foundations**

granted free access to Yandex services for business<sup>2</sup>

<sup>1</sup> PUE (Power Utilization Efficiency) is the ratio of the total power consumption of a data center to the energy delivered to computing equipment. The average PUE (power usage effectiveness) of Yandex data centers in 2020 was 1.25. According to the Uptime Institute's 2020 Data Center Industry Survey Results, the average PUE of data centers in Russia is 1.6, in the world — 1.59, and in Europe — 1.46.

<sup>2</sup> As of March 2021

# Corporate Governance

# Ownership Structure as of June 30, 2021

## Shareholder Structure

Principal pre-IPO Shareholders, Directors, Officers and Employees    Volozh Family Trust    Other Directors, Officers & Employees    Other pre-IPO Shareholders    Public Investors

### Total shares issued, including

- 321,681,669 Class A shares
- 35,698,674 Class B shares
- One Priority share
- Excluding 1,058,810 Class A shares held in treasury as a result of Yandex's share repurchase program
